

Report on Expert Session on “Myths & Facts of Mutual Funds”

The Department of Commerce (Self Finance) of Guru Nanak Khalsa College of Arts, Science & Commerce, offering BAF, BBI, BFM and Unaided B. Com programmes, organized an insightful **Expert Session on “Myths & Facts of Mutual Funds”** for the students of TYBBI and TYBFM. The session aimed to create awareness about mutual fund investments and equip students with essential knowledge for making informed financial decisions.

The programme commenced with a **warm welcome and introduction of the esteemed speaker, Mr. Abhishek Parekh, CEO & MD of White Elephant and an alumnus and industry expert**, by **Dr. Charanjit Kaur Banga**. Her introduction set the tone for an engaging and informative session.

The speaker began by explaining the **concept of investment** through an interesting analogy linking the **ICC World Cup with Mutual Funds**. This creative comparison helped students understand the importance of diversification, teamwork and strategic decision-making in investments. He further elaborated on the **meaning and importance of investment** and explained how proper investment planning can help individuals achieve their short-term and long-term financial goals.

The session then focused on **Mutual Funds**, including their basic concept, functioning and practical applications. Through relatable examples, the speaker explained how investors pool their money and how professional fund managers invest these funds in different securities.

Students were introduced to the **classification and different types of Mutual Funds based on the market**, helping them understand the various investment avenues and their suitability according to an investor's objectives and risk appetite.

An important part of the session was the discussion on **Value Stock Investing and Growth Stock Investing**. The speaker explained the fundamental differences between the two approaches, along with their respective **benefits, risks and investment considerations**. Practical insights helped students understand how investors can evaluate different stocks and make investment choices based on their financial objectives.

The session concluded with an **interactive question-and-answer session**, where students actively participated and clarified their doubts related to mutual funds, stocks, investment strategies and financial planning. The interaction made the session engaging and provided students with an opportunity to gain practical insights from an industry expert.

Overall, the expert session was **highly informative, interactive and beneficial** for the students. It successfully helped them distinguish between common myths and facts surrounding mutual funds, understand the fundamentals of investing, and appreciate the importance of informed financial decision-making. The session encouraged students to develop a more confident and practical approach towards **investment and wealth creation**.
