Report on Soil and Water Conservation Activities

G. N. Khalsa College, Matunga – NSS Unit

Walkathon – "A Walk for Water"

As part of the efforts to create awareness about the importance of **soil and water conservation**, the NSS volunteers of **G. N. Khalsa College, Matunga, Mumbai**, participated in a **Walkathon titled "A Walk for Water"** at Worli Promenade, Mumbai.

The activity aimed to raise awareness among students and the public about the need for water conservation, the sustainable use of water resources, and the protection of the environment. The walk commenced at Worli Milk Dairy, proceeded through the Madras Wadi Subway, followed the Coastal Walking Track, and concluded at the Worli Promenade.

More than 150 NSS volunteers and students from various colleges participated enthusiastically in the Walkathon. The participation of students from different institutions helped create a collective message regarding the importance of conserving water and using natural resources responsibly.

Our five NSS volunteers actively participated in the awareness walk and demonstrated their commitment towards environmental protection and sustainable development. The event also provided an opportunity for students to understand that conservation of water is closely connected with the protection of soil, ecosystems, and other natural resources.

Oath-Taking Activity

As a part of the awareness programme, an oath-taking activity was also conducted on the college campus. Students took an oath expressing their commitment towards the conservation and judicious use of water and natural resources.

The activity encouraged students to adopt responsible practices in their daily lives and to motivate others to contribute towards water conservation. The oath-taking programme reinforced the message that every individual has an important role to play in protecting and conserving water resources.

Our NSS students are actively involved in **theme-based Reel-making** that will be uploaded on social media to create public awareness.

Through such awareness and community-oriented activities, the NSS Unit of G. N. Khalsa College, Matunga continues to encourage students to become responsible citizens and active contributors to environmental sustainability.
